When booking on the site via the Contact / Reservation Form, each user expressly accepts these presents by checking the box preceding the following text: "I accept the General Conditions of Use, the General Conditions of Sale, the legal notices and the Paris France Parking Privacy Policy".

The Site www.parisfranceparking.com reserves the right to modify unilaterally and at any time the content of these Terms of use and privacy policies.

ARTICLE 4 – RESPONSIBILITY OF THE EDITOR

The information and / or documents appearing on this site and / or accessible by this site come from sources considered reliable.

However, this information and / or documents may contain technical inaccuracies and typographical errors.

Paris France Parking reserves the right to correct them as soon as these errors are brought to its attention.

It is strongly recommended to check the accuracy and relevance of the information and / or documents made available on this site.

ARTICLE 5 – CAPACITY

The services are accessible to any User who is at least 18 years old and has full legal capacity to contract and use the Site in accordance with these conditions, provided they have a computer, tablet or a smartphone and an internet connection. The User is responsible for all actions carried out on the Site.

ARTICLE 6 – OBJECT OF THE SITE

The www.parisfranceparking.com site references the parking lots of Paris France Parking and its subsidiaries. The Site allows the User to obtain all the information relating to the location of the car parks, the accessibility conditions and the rates charged according to the different parking formulas marketed. The Site also makes it possible to reserve a parking space for a fixed period.

Special cases for the Place des Fêtes, Belleville and Bellefond car parks:

It is specified that the company Paris France Parking acts as a simple intermediary on behalf of these three car parks. Users do not contract directly with the company Paris France Parking for the parking formulas sold in Place des Fêtes, Belleville and Bellefond car parks. The user contracts with the company Parking Paris Nord (8 rue Compans, 75019 Paris) for Place Des Fêtes parking lot, with Parking Paris Nord Est (30 boulevard de Belleville 75020 Paris) for Belleville car park, and with the company STIF (10 rue de Bellefond 75009 Paris) for the Bellefond parking lot.

These three companies are subsidiaries of Paris France Parking.

Paris France Parking is happy to inform users about the pricing and accessibility conditions applied by these establishments and offers to reserve a free parking space on the Site, benefiting from a preferential rate.

In the event of disputes or complaints addressed concerning Place des Fêtes, Belleville and Bellefond car park, Paris France Parking undertakes to transmit them as soon as possible to the companies concerned. It is specified that the responsibility of Paris France Parking, a simple technical intermediary, may in no case be engaged in the event of non-performance or poor performance of the contractual obligations attributable to the above-mentioned car parks.

It is recalled that any reservation made on the Site legally commits the company operating the Parking directly to the User and the User vis-à-vis the company operating the Parking. The operating company is therefore solely responsible for the proper performance of the parking services (and its associated services) provided.

ARTICLE 7 – RESERVATION (except utility space cf. Article 12)

The reservation of parking space on the Site is completely free.

The reservation allows the User to benefit from a preferential rate, which will be granted directly upon arrival at the car park, upon simple presentation of the confirmation received by email and containing the reservation code.

The user wishing to book on the Site must therefore have an email address for sending the booking confirmation by email.

The customer makes a reservation by clicking on the "contact / reservation" tab on the top banner of the Site. He must then fill in the required information on the dedicated form and check the box relating to the collection of consent as indicated in Article 3.

Reservation is also offered when the User searches from the home page. In this case, the Customer indicates:

- firstly, a precise postal address and the expected date of arrival
- in a second page, he selects the vehicle category and clicks on "search"
- in a third page, it provides the desired parking time and clicks on "search"

The customer is then redirected to a page displaying, as a result, the nearest geographically located car park by public transport, from the destination indicated on the home page.

He can then choose to click on the "book" button and is redirected to the page containing the booking form.

Finally, he can also book directly by accessing the parking form from the top banner of the site. On this page, you will find the parking location information, the rates charged and a "book" button allowing the customer to be redirected to the booking form.

As soon as the reservation is made, the Customer receives an email containing a reservation code which allows him to benefit from a preferential rate, to the email address he has entered.

The User can also simply inquire on the Site about the various Services offered without making a reservation. In this case, he will not be able to benefit from "internet rates".

ARTICLE 8 – OPERATION (except utility space cf. article 12)

1 / Access to the park

a) Access with reservation

Once arrived at the car park (the day of his reservation), the customer will collect a ticket at the entrance terminal and park his vehicle (*except utility space see Article 12*). Then, they will come to reception to provide the attendant with the reservation code and make the payment for the parking time indicated in the confirmation email received.

Once the payment has been made, the attendant will provide him with a countermark which will be used to open pedestrian access and enter and exit the Parking lot for the duration of his stay.

If the customer is unable to show the attendant the proof of his reservation, he will not be able to benefit from the internet rates and will have to pay the parking fee displayed at the entrance to the Parking lot.

When he leaves, and if he has not passed the scheduled exit time, he just has to insert his countermark in the exit terminal to leave the Parking.

Users are recommended to keep their voucher, which is essential for entering and leaving the Parking, carefully.

In the event of loss of the countermark, the attendant will make no barrier opening and no exit ticket may be given to the User, who must pay the parking duration at the rate in effect in the Parking.

If the authorized exit deadline is exceeded, the Customer will be billed for the duration of the overrun according to the price list in force in the Car Park. Any time slot started is due. It is specified that the payment at the quarter of hour applies only for the first twelve hours of overtaking. Beyond that, the daily rate is applied.

b) Access without reservation

b.1 - Once arrived at the car park, the customer will collect a ticket at the entrance terminal and park their vehicle. Then, if the customer wishes to enter and leave his vehicle during his stay, he can go to reception to make full payment for the chosen parking time in order to obtain the appropriate countermark.

When he leaves, and if he has not exceeded the scheduled exit time, he just has to insert his countermark in the exit terminal to leave the Parking.

Users are recommended to keep their voucher, which is essential for entering and leaving the Parking, carefully.

In the event of loss of the countermark, the attendant will make no barrier opening and no exit ticket may be given to the User, who must pay the parking duration at the rate in effect in the Parking.

If the authorized exit deadline is exceeded, the Customer will be billed for the duration of the overrun according to the price list in force in the Car Park. Any time slot started is due. It is specified that the payment at the ¼ hour only applies for the first twelve hours of excess. Beyond that, the daily rate is applied.

b.2 - If the customer does not need to use his vehicle during the parking period, he is not required to pay for his parking in advance. He can pay the parking fee when leaving the car park. Any time slot started is due. It is specified that the payment at the ¼ hour only applies for the first twelve hours of parking. Beyond that, the daily rate is applied. Then, beyond that, any new day started is due in full.

2 / Obligations

By entering the Car Park, the Customer unreservedly agrees to comply with the internal regulations displayed in the car parks and in particular:

- to respect the rules of the highway code. As such, the Customer ensures that he holds a driving license valid in France and corresponding to the category of vehicle used
- to respect the specific height limitations in each car park
- to park a vehicle duly insured and certified as a driver, also to be covered by an insurance policy valid for the entire effective duration of parking in the Parking
- to respect the limitations of parking spaces, taking care not to encroach on the markings on the ground.
- to refrain from maintaining his vehicle inside the Car Park, or to carry out any repair of the latter.
- park and immobilize your vehicle for more than 90 days

Parking is at the User's own risk. The fee paid by the Customer does not constitute a right of custody or a right of surveillance of the vehicle.

ARTICLE 9 – SUBSCRIPTION

Subscriptions are carried out exclusively in situ.

The User can collect information relating to the subscription methods and reserve a parking space on the Site. However, to finalize the subscription, the User must go to the Parking lot to sign the rental commitment and pay the first rental invoice including the pro rata of the current month, the security deposit and the fee linked to access. As soon as these administrative formalities are completed, the customer is given a means of access to enter and exit the parking lot for the duration of the contract.

Subscription contracts automatically include minimum commitment periods ranging from 6 to 12 months, depending on the subscription plans purchased.

Subscription contracts can be terminated at the end of the commitment period. The user must send a registered letter with acknowledgment of receipt, respecting a full month's notice.

The subscription methods are shown on the subscription form that the User can collect at the reception of the car parks or by requesting it by email, at the address: info@parisfranceparking.fr

The general conditions of the Subscription contract are also available on request at the address: info@parisfranceparking.fr

ARTICLE 10 – CANCELLATION (except utility space cf. article 12)

ARTICLE 11 – FINANCIAL CONDITIONS AND PAYMENT METHOD

11.1 – Rates

The Rates indicated on the Website are in Euros, all taxes included.

Rates vary according to the parking formulas marketed and the car parks referenced on the Site.

Paris France Parking reserves the right to modify prices at any time and without notice, but the price applicable to the reservation will remain that indicated in the reservation confirmation and will be the price which will be granted to the User when paying at the car park.

a) The parking fee is paid in full upon payment made by the User upon arrival at the Parking for Customers wishing to obtain a Package or before leaving the Parking for Customers who have not purchased Packages on their arrival.

The User cannot claim any reimbursement if he leaves the Parking before the end of the parking period paid upon his arrival.

When the Customer buys a Pass upon arrival at the Parking, he cannot ask to extend the initial parking period, he will have to pay the excess at the hourly rate in force in the parking lot.

ARTICLE 12 – UTILITY AREA

Unlike private vehicles, the rental of parking spaces for commercial vehicles is subject to a compulsory prior reservation. The parking of a utility vehicle results in an overnight rate (arrivals are possible from 12 noon and the final exit must be made before 12 noon on the day of departure).

We have covered underground parking spaces in our Pyrénées-du Clos car park, capable of accommodating utility vehicles up to 2.95m in height.

Covered spaces are also available at the Place des Fêtes car park for vehicles not exceeding 2.25 m in height.

Covered spaces are also available at the Belleville parking lot for vehicles up to 2.15 meters high.

Finally, open parking spaces can accommodate utility vehicles over 2.95m high in our Gambetta car park, without however exceeding 7m in length.

The reservation of the pitch is also free and allows the User to receive a confirmation voucher by email.

If the User is a Private Customer, payment will be made in situ upon arrival at the Parking. The User, Private Client can withdraw at any time, before the start of the service, without penalties, by sending a simple email to the address: info@parisfranceparking.fr

ARTICLE 13 – IMPOSSIBILITY FOR THE PARKING TO PROVIDE THE RESERVED SERVICE AND FORCE MAJEURE

As part of its customer relations policy, Paris France parking will endeavor to offer the Customer an equivalent replacement parking solution in the other available car parks.

Parking cannot be held liable if the non-performance or the delay in the execution of one of its obligations described in these Terms of Use and Privacy Policy, is the result of a case of force majeure as provided for in articles 1351 and 1351-1 of the Civil Code.
